- Zero-day time to comply orders will result in a cease-and-desist of the business' retail mobile fueling activities

- 14-day time to comply orders will result in a failed inspection and create a follow-up inspection after the 14 days has expired. If the non-compliances are not rectified within 14 days by the follow-up inspection, the follow-up inspection will result in a cease-and-desist order for the business's retail mobile fueling activities.

- If there are no zero-day or 14-day time to comply orders (i.e. no orders issued or only 90-day time to comply orders), the audit will pass.

For the result of a cease-and-desist of the business' retail mobile fueling activities, the following standard note shall be included in the inspection report:

"You are hereby ordered to cease-and-desist the operation of your retail mobile fueling business"

TSSA will accept the following to confirm compliance:

- **For equipment requirements:** Physical samples or pictures are acceptable. You may choose to have a sample truck available for the audit.

- **For training requirements:** Records that demonstrate that the fuel delivery drivers have been appropriately trained.

Compliance Checklist Items:

1. Comply with Liquid Fuels Handling Code (LFHC) Appendix I clause I.1 and only used highway tanks licensed under O. Reg. 217/01 section 10(2) to dispense fuel for Retail Mobile Fueling
   Zero-day time to comply order (Equipment)

   The business shall have at least one licensed liquid fuels tanker truck.

2. Comply with LFHC Appendix I clause I.2 and ensure that a 80-B:C fire extinguisher and a spill kit shall be located on the highway tank
   90-day time to comply order (Equipment)

3. Comply with LFHC Appendix I clause I.3 and ensure that the spill kits contain:
   a) Twenty heavy weight spill pads (hydrophobic 38cm x 45cm)
   b) Two spill socks (hydrophobic 1 m long)
   c) Five disposable bags to contain contaminated pads/socks

d) One - 16 kg container of granular absorbent compatible with petroleum products
e) One drain cover - 1m x 1m (catch basin cover)
f) Dike putty (to plug holes in tank)
Zero-day time to comply order (Equipment)

4. Comply with LFHC Appendix I clause I.4 and ensure that nozzles used for dispensing shall be no greater than 25.4mm (1in) in diameter and shall be of the automatic shut-off design
   Zero-day time to comply order (Equipment)

   Not applicable when fuel level in the tank is visible during the fueling operation.

5. Comply with LFHC Appendix I clause I.6 and ensure that hoses through which the product is transferred shall not exceed 61 m (200 ft), and an appropriate storing mechanism shall be used to prevent damage to the hose.
   Zero-day time to comply order (Equipment)

6. Comply with LFHC Appendix I clause I.7 and ensure that highway tanks shall be equipped with a beacon light that shall be in operation during fueling operations. The light shall be designed to be readily visible to other people or vehicles entering the fueling area.
   90-day time to comply order (Equipment)

7. Comply with LFHC Appendix I clause I.8 and ensure product shall only be transferred by means of pumping.
   Zero-day time to comply order (Equipment)

8. Comply with LFHC Appendix I clause I.10.3 and ensure that there is a spill response procedure, and that personnel shall be trained in the containment, cleaning up, and reporting of spills in accordance with the requirements of Clause 8.2 of the LFHC
   Zero-day time to comply order (Training)

9. Comply with LFHC Appendix I clause I.12 and ensure that there is a safety and emergency response plan that establishes policies and procedures for fire safety, spill prevention and control, personnel training, and compliance with other applicable requirements of the LFHC
   Zero-day time to comply order (Training)

10. Comply with LFHC Appendix I clause I.13 and ensure that highway tanks shall be operated only by personnel who are trained in proper fueling procedures and the safety and emergency response plan. Training records of fuel delivery drivers shall be maintained.
    Zero-day time to comply order (Training)

11. Specifically for Watercraft Fueling - Comply with LFHC Appendix I clause I.13 and I.14 and ensure that highway tanks shall be operated only by personnel who are trained in proper fueling procedures and the safety and emergency response plan. Training records of fuel delivery drivers shall be maintained.
    Zero-day time to comply order (Training)
